SAMARITAN HOUSE TORNADO SAFE PLACE PLAN

Active Shooter Plan

Quickly determine the most reasonable way to protect your own life.

1. **Evacuate:** If there is an accessible escape path, attempt to evacuate the premises. Evacuate regardless of whether others agree to follow. Leave your belongings behind. Help others escape, if possible. Prevent individuals from entering an area where the active shooter may be. Keep your hands visible. Follow the instructions of any police officers. Do not attempt to move wounded people. **Call 911 when you are safe**
2. **Hide out:** If evacuation is not possible, find a place to hide where the active shooter is less likely to find you. Your hiding place should be out of the active shooter's view, provide protection if shots are fired in your direction (i.e., an office or apartment with a closed and locked door).
3. **To prevent an active shooter from entering your hiding place:** Lock the door and blockade it with heavy furniture. If the active shooter is nearby, silence your cell phone and/or pager, turn off any source of noise (i.e., radios, televisions), hide behind large items (i.e., cabinets, desks), and remain quiet.

If evacuation and hiding out are not possible:

Remain calm and dial 911, if possible, to alert police to the active shooter's location. If you cannot speak, leave the line open and allow the dispatcher to listen.

Service and Emotional Support Animals

The following are the steps required to have a service/emotional support animal:

- Documentation for a service animal must be written and signed by a licensed professional. This is for animals that do work, perform tasks and assist the individual with daily needs.
- Documentation for an emotional support animal must be written and signed by a licensed mental health professional. This is for animals who provide therapeutic emotional support for diagnoses such as anxiety, major depressive disorder, bi-polar disorder, post-traumatic stress disorder, traumatic brain injury, obsessive compulsive disorder, schizophrenia and similar diagnoses.
- All documentation needs to be submitted to the Leasing Manager for review.
- Once approval is received, animals must have proof of compliance with city ordinances regarding registration, proof that animal was spayed or neutered and have vaccination records.

The following breeds of dogs are no allowed on the property:

Pit Bull, Rottweiler, German Shepherd, Husky, Alaskan Malamute, Doberman Pinscher, Chow Chow, Presa Canario, Boxer, Dalmation

In addition to the above breeds any dog over 30 pounds will not be allowed.

Because of the threat of toxoplasmosis to people living with HIV/AIDS, under no circumstances will cats be allowed on the property or in the building.

Outside of a service animal, no other animals or pets are allowed in resident rooms. It is acceptable to keep tropical fish in his or her room; however, the tank size is limited to twenty (20) gallons and management must give approval in writing.

Tarrant County Samaritan Housing, Inc.

Donations

Samaritan House receives many donations on behalf of the residents and we are very grateful for the community support. Requests for needed items should be directed to your case worker, who will communicate the need to the Director of Programs.

Under no circumstances are you to accept donations on behalf of the Samaritan House. If someone comes to Samaritan House with a donation, they are to be directed to the appropriate staff person or to the LSES in charge. Residents are to never take anything out of the donations unless approved by the Community Development Manager.

Tarrant County Samaritan Housing, Inc.

Security Cameras

Samaritan House uses cameras in the SRO common areas and staff offices for the safety of staff and residents. The cameras in the common areas are for the LSES on duty to monitor areas as needed. If an incident happens it allows us to go back and view footage or provide it to law enforcement should they request it.

Cameras in the staff office act as an added layer of protection for staff and residents. If an allegation is made it allows staff to go back and view what was said by all parties in the room. The VP of Programs is the only person with access to the cameras.

Viewing of footage from any of the cameras is not contingent on the request of residents. A request in writing must be made to your case worker with the reason why footage needs to be viewed along with the date and time needing to be viewed. For cameras in staff offices the decision is up to the VP of Programs. For footage on the rest of the cameras the decision is up to the Facilities Manager.
